CREATIVE SPOTLIGHT- HIGH TECH P.O.P.

We invite you to participate in our **Creative Spotlight-High Tech P.O.P story**, which will be presented in full color in our April issue. The story will focus on all types of high tech point-of-purchase applications, including interactive kiosks, digital signage, lenticular, LED electro-luminescent and other illuminated and animated signage technologies, and 2D Barcodes and Quick Response Tags that tie point-of-purchase materials to mobile marketing programs. Please fill out this form as fully and accurately as possible.
