CREATIVE Spotlight – Display Security & Anti Theft Systems

Editorial submissions for the **Creative Spotlight – Display Security & Anti Theft Systems** will cover the wide array of display materials available to display designers to create point-of-purchase displays. We invite you to participate in this feature by submitting a full color image of a display security product or anti-theft system that your firm offers for the point-of-purchase industry. The image may show a specific product or may feature a display case history. Enclosed is a form to use in supplying us with information and images for this article.
